

EuroGlobalMap Updates

Refers to EGM 2022.2, released in January 2022

1. Overview of the EGM data updating

1.1. General

Updates carried out for EGM 2022.2:

- Update of the Administrative Boundaries theme (BND):
 - Full generalisation from EBM 2021;
- Update for the Transportation theme (TRANS):
 - Full generalisation from ERM 2021 for all countries maintained in ERM and satisfying generalisation quality requirement.
- Update of the Settlement (POP):
 - Full generalisation from ERM 2021 for all countries maintained in ERM and satisfying generalisation quality requirements.

The EGM metadata was updated and its compliance with the INSPIRE metadata regulations was checked.

1.2. Database specifications

The EGM data 2022.2 are compliant with the EGM database specifications (version 2022).

2. Errors corrections and data completeness

2.1. New countries

Data from Bosnia and Herzegovina, Bulgaria, Ukraine, the Isle of Man and Montenegro are now available, although they may be incomplete.

2.2. Intertheme consistency

No remark.

2.3. Error corrections

EGM 2022.2 is a corrected version of EGM 2022, thanks to producers' reports on EGM 2022.

2.4. Other changes

None.
